

Don't Give Away My Tax Dollars

I am against giving any taxpayer dollars for building the student housing facility. It does not make any good old fashion common sense to give to a developer money that is going to make money off my tax dollar. It is like giving me \$100,000 if I wanted to start a business, would then I get the money? NO I would not. It is the same concept in this situation.

All this project is, is more damage to downtowns business area from the historical aspect just to make a buck. Downtown Eau Claire will never, ever look or be as good as it was in the past. Developers have done a lot of damage to the down town area from the historical aspect and this is a continuation of it just to make a buck.

DO NOT waste our tax payer dollars, if this project is to be forced on us then it should be done with all private monies.
